## PROJECTS

### Blogging Site (05/2023)

- This project is a backend of the mini-blogging site with authentication and authorization. It contains the APIs for the creation of a new Author, a New Blog, getting the blogs, updating the previous blog, and deleting the blog. .
- <https://github.com/prajwalgaulkar9158/PGproject/tree/project/blogGroup5>

### Url Shortner (06/2023)

- The project is based on "URL shortener". An URL shortener is a website that reduces the length of your URL (Uniform Resource Locator). The idea is to minimize the web page address into something that's easier to remember and track.
- <https://github.com/prajwalgaulkar9158/PGproject/tree/newUrlShortner>

### Open-To-Intern (06/2023)

- open To Intern This project is a backend of an internship site where students can apply for internships in a particular college by searching for a college n
